Doing Business in Luxembourg

With its unique location at the crossroads of Europe, bordering France, Belgium and Germany, Luxembourg is an ideal place to conduct business.

Its economy, traditionally based on the steel and engineering industry, has been strengthened by a vibrant banking and investment fund sector. With a government responsive to the needs of its financial services professionals, Luxembourg is now recognised as one of the world's leaders in the investment fund industry.

Socially strong, Luxembourg hosts major EU institutions such as the European Court of Justice, the European Court of Auditors and the European Investment Bank.

Bolstered by a skilled multinational and multilingual workforce, low business costs, an attractive tax framework and a safe and secure environment, Luxembourg is recognised as one of the most attractive business centres in Europe.

Our Firm - Our Approach

We are one of the few law firms in Luxembourg wholly dedicated to business law and are characterised by a dynamic team of multi-national lawyers, providing legal advice in various languages.

In order to meet the global needs of our clients, the boundaries of our practice areas are flexible, allowing us to combine our expertise with a cross-competent approach. We believe that the need to work in teams lies at the heart of every multi-service law firm.

We enjoy constantly taking up challenges and adapting ourselves to an ever-changing environment.

We regard efficiency, responsiveness and a practical and creative approach as vital to the provision of a first-rate legal service to our clients.

We have an international outlook. Throughout the years, we have established strong relationships with other European law firms, consultants and service providers, which allow us to provide global coordination and integrated advice to clients whose business activities reach beyond Luxembourg.

Corporate and commercial law is the core practice area within our firm and represents an extremely comprehensive grouping of lawyers and specialist staff.

GENERAL

On a daily basis we assist clients with setting up business (including joint-ventures) in Luxembourg. Having experience and expertise in a large number of commercial fields, we assist each client throughout the whole life cycle of the company.

CORPORATE RESTRUCTURING

We produce tailor-made solutions for group restructuring. The structures we implement have reaped many rewards for our clients. Furthermore, our relationships with law firms' worldwide, means we provide high quality legal advice on a truly global basis.

MERGERS & ACQUISITIONS AND PRIVATE EQUITY

Regularly consulted in these fields, we provide a full range of services from negotiations through to closing day and beyond.

To face the legal challenges of this practice area, there is a need for multidisciplinary legal advice and our dedicated IP/IT team of lawyers has been established with that philosophy in mind.

INTELLECTUAL PROPERTY

Our clients are increasingly keen to protect work and ideas produced. We have experience in counselling our clients on the process of registration and drafting all documentation in the context of intellectual property.

INFORMATION TECHNOLOGY

As this is an area that is constantly evolving, we ensure that our lawyers have a deep understanding of new technologies. We advise on all legal aspects associated with security, electronic document storage, invoicing and signature.

PRIVACY RIGHTS

More personal data is being processed and transmitted than ever before. In this context, we ensure that clients benefit from the full potential of personal information whilst complying with data protection and privacy legislation.

Employment Law

Our experienced lawyers offer a range of tailored solutions for all questions posed by employers and employees alike, taking into account domestic, international and EU laws and best practices.

GENERAL

We have a diverse practice advising on the full range of employment law issues arising with respect to human resource management.

MULTINATIONAL EMPLOYMENT

Luxembourg is faced with the reality of a multinational workforce. We regularly advise on the legal aspects of secondment, expatriation and salary splits.

OUTSOURCING

With companies turning more to outsourcing and remodelling their corporate structures, our lawyers frequently provide advice on how to deal with legal consequences for employees as they may arise.

STOCK OPTIONS AND PENSION SCHEMES

We have built expertise in setting up plans specifically tailored to client needs, within legal regulatory constraints.

Luxembourg has a vibrant banking community and is a world leader in the investment fund industry. Our team advises clients, from domestic and international banks to investment funds, insurance companies, as well as large corporate clients.

FINANCING OPERATIONS AND COLLATERALIZATION

Financing operations and adapted securities lie at the heart of a company's viability. Our focus is on helping clients develop financing and restructuring their debts.

BANK, FUND AND INSURANCE REGULATORY ASPECTS

Our clients must comply with specific regulations for the banking and financial sector. We advise on legal and regulatory constraints and domestic practices.

FINANCIAL PRODUCTS AND SERVICES

Financial products are continuously being developed by the players in the financial markets. We focus on gaining expertise on the latest financial products and services developed in Luxembourg to provide well-informed legal advice.

We approach litigation and dispute resolution by combining legal insight with a practical outlook.

DISPUTE RESOLUTION

We assist our clients with litigation proceedings in all business fields and advise on litigation strategy, including preliminary negotiation when more appropriate.

TAX LITIGATION

We have a dedicated team specialized in tax litigation who represent clients before Luxembourg tax authorities as well as with all procedures before the Luxembourg administrative jurisdictions.
