

## Gary Cywie

### Experience

Since he was a student, Gary has constantly focused his education and career primarily on both legal and technical aspects of IP/ICT.

He joined Noble & Scheidecker after co-heading the IP/ICT department of another top ranked Luxembourg law firm, where he worked during 5 years.

Gary is involved with all Technologies matters, mainly Internet (e-commerce), Domain Names, Digital Signature, Data Protection, legal aspects of IT Security, Telecommunications and Biotechnology. In addition, he handles Intellectual Property and Media matters, and, more generally, all types of contracts pertaining to his various fields of expertise (for instance, he has been focusing lately in outsourcing agreements and software license agreements) as well as commercial contracts.

He regularly assists renowned local companies and foreign companies setting up a business in Luxembourg, and government entities in connection with their IP/ICT legal needs.

Gary particularly enjoys organising and coordinating projects, should it be for clients or internally (especially as regards the firm's computing environment as he has a very good technical knowledge of IT related matters), and is an active member of the Marketing team.

He is the author and co-author of several publications on new information and communication technologies subjects, and speaks at conferences and seminars about the legal aspects of e-business.

Gary is recommended by the Legal 500.
